

Jungin Park, PhD

Research Professor
Yonsei University
225D, Engineering Research Park, 50, Yonsei-ro
Seodaemun-gu, Seoul, Korea, 03722

Email: john.jungin.park@gmail.com
Web: <https://park-jungin.github.io/>
Google Scholar: [Google Scholar](#)
Phone: (+82)10-2330-8766

(a) RESEARCH INTEREST

Multimodal learning, multimodal large language model, video understanding, efficient machine learning, vision-language-action models

(b) EDUCATION

Yonsei University

2018.03 – 2024.02

Ph.D. in Electrical and Electronic Engineering

Seoul, Korea

· Advised by Prof. Kwanghoon Sohn

· Dissertation: Language-guided spatiotemporal representation learning for video understanding

Yonsei University

2012.03 – 2018.02

B.S. in Electrical and Electronic Engineering

Seoul, Korea

(c) EXPERIENCE

2025.04 – Present	Research Professor	Yonsei University, Seoul, Korea
2024.09 – 2025.03	Postdoctoral Research Fellow	Yonsei University, Seoul, Korea
2024.03 – 2024.09	Visiting Researcher	NAVER AI Lab, Seongnam, Korea

(d) PUBLICATIONS

Selected Publications (* equal contribution, † corresponding author(s))

1. **Jungin Park**, Jiyoung Lee, and Kwanghoon Sohn[†], V-lynx: Token interface alignment for video+xlms, International Conference on Machine Learning (ICML) (2026).
2. **Jungin Park**, Jiyoung Lee[†], and Kwanghoon Sohn[†], Bootstrap your own views: Masked ego-exo modeling for fine-grained view-invariant video representations, IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR) (2025).
3. Kwonyoung Kim, **Jungin Park**[†], Jin Kim, Hyeongjun Kwon, and Kwanghoon Sohn[†], Faster parameter-efficient tuning with token redundancy reduction, IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR) (2025).
4. **Jungin Park**, Jiyoung Lee[†], and Kwanghoon Sohn[†], Bridging vision and language spaces with assignment prediction, International Conference on Learning Representations (ICLR) (2024).
5. **Jungin Park**^{*}, Jiyoung Lee^{*}, and Kwanghoon Sohn[†], Dual-path adaptation from image to video transformers, IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR) (2023).
6. **Jungin Park**, Jiyoung Lee, Ig-Jae Kim, and Kwanghoon Sohn[†], Probabilistic representations for video contrastive learning, IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR) (2022).
7. **Jungin Park**, Jiyoung Lee, and Kwanghoon Sohn[†], Bridge to answer: Structure-aware graph

interaction network for video question answering, IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR) (2021).

(e) HONORS & AWARDS

2023	Outstanding Dissertation Fellowship	Yonsei University
2023	Academic Research Fellowship	Yonsei University
2019	Outstanding 100 National Research Projects	Ministry of Science and ICT, Korea
2019	CoVieW 2019 ICCV Challenge · 3rd award	ICCV 2019 Workshop
2019	Workshop on Frontiers of Electrical Engineering · 2nd award	Yonsei University

(f) TALKS

2026	Invited Talk · Learning from videos: Simple visual to multimodal modeling	Yonsei University
2025	Invited Talk · Learning from ego- and exo-centric videos	Queen Mary University of London
2025	Invited Talk · Recent advances in multimodal large language models and their applications	Korea Electrotechnology Research Institute
2025	Korean Conference on Computer Vision (KCCV) · Fine-grained view-invariant video representation learning (Poster presentation)	Korea Computer Vision Society
2024	Invited Talk · Computer vision for video understanding: From representations to applications	LIG Nex1
2023	Korea AI Summit · Spotlight presentation	Ministry of Science and ICT, Korea
2023	Korean Conference on Computer Vision (KCCV) · Image to video transfer learning (Poster presentation)	Korea Computer Vision Society
2023	Korean Conference on Computer Vision (KCCV) · Doctoral colloquium	Korea Computer Vision Society
2022	Korean Conference on Computer Vision (KCCV) · Probabilistic video contrastive learning (Poster presentation)	Korea Computer Vision Society
2022	Naver CLOVA, AI tech talk · Probabilistic video contrastive learning	Naver Corporation
2021	Naver AI Lab, AI author meetup · Structure-aware video question answering	Naver Corporation
2021	Korean Conference on Computer Vision (KCCV) · Structure-aware video question answering (Poster presentation)	Korea Computer Vision Society

(g) PROJECTS

1. Human-centric Immersive HyperSpace Global Research Laboratory, Ministry of Science and ICT – Global Basic Research Laboratory, 2025.06-Present
 - Benchmarking generative models using human-centric interaction and immersive components (In progress)
2. Omnimodal Data Construction and Integration towards Artificial General Intelligence, Ministry of Science and ICT – Mid-level Research, 2025.03-Present
 - Benchmarking audio-visual question answering (AVQA) task (In progress)
 - Developing omnimodal large language models (In progress)
3. Development of omnimodal-based General-purpose Artificial Intelligence, Yonsei University

- sity – Yonsei Signature Research Cluster, 2025.03-Present
- Analyzing the modality gap between image and text data (In progress)
4. Development of Multimodal-based General-purpose Artificial Social Intelligence, Yonsei University – Yonsei Signature Research Cluster, 2022.03-2024.02, 2024.09-2025.02
 - Developed faster parameter-efficient tuning (FPET) with token redundancy reduction for foundation models, achieving 20% faster inference speed with 25% lower FLOPs on VTAB-1K and Flickr30K (presented at **CVPR 2025**)
 - Developed a cross-view video representation learning method using egocentric and exocentric videos (presented at **CVPR 2025**)
 5. Development of multimodal Data Fusion and Artificial Social Intelligence for Comprehensive Scene Understanding and Prediction, Ministry of Science – Mid-level Research, 2021.03-2024.02
 - Developed vision-language multimodal large language models by bridging pre-trained vision and large language models based on optimal transport, demonstrating the effectiveness on image captioning, VQA, visual dialog, and retrieval tasks (presented at **ICLR 2024**)
 - Developed a parameter-efficient transfer learning method to adapt pre-trained image models to video tasks, requiring x10 lower FLOPs than video models (presented at **CVPR 2023**)
 - Developed a probabilistic self-supervised learning method for spatiotemporal representations, outperforming deterministic approaches on zero-shot and fine-tuned action recognition (presented at **CVPR 2022**)
 - Developed video-language multimodal interaction networks for video question answering, enabling the model to understand compositional semantics in video and language data (presented at **CVPR 2021**)
 6. To Create AI Systems that Act Appropriately and Effectively in Novel Situations that Occur in Open Worlds, Institute of Information&Communication Technology, 2020.04-2022.03
 - Developed algorithms for autonomous delivery robots that can perform computer vision tasks in real-world environments
 - Developed memory-guided domain generalization networks for semantic segmentation (presented at **CVPR 2022**)
 - Developed a novel online stereo adaptation method using meta-learning, enabling real-time (35.7 fps) depth estimation from streaming stereo images (presented at **ECCV 2022**)
 7. Fundamental Research of Vision Algorithms for Comprehensive and Thorough Video Understanding, Ministry of Science, ICT, and Future Planning, 2018.03-2020.02
 - Developed temporal graph reasoning networks for video summarization, which is the first to introduce graph convolutional networks to video summarization (presented at **ECCV 2020**)

(h) PATENT

1. Jungin Park and Kwanghoon Sohn, Video Question Answering Apparatus and Method based on Graph Interaction, Jan. 2021
 - Korea Patent, 10-2806936
2. Jungin Park and Kwanghoon Sohn, Video Summarization Apparatus and Method through Recursive Graph Modeling, Dec. 2020
 - Korea Patent, 10-2198480. PCT/KR2020/010755
3. Jungin Park and Kwanghoon Sohn, Video Action Recognition and Localization Apparatus and Method, Oct. 2020

- Korea Patent, 10-2174658, PCT/KR2019/004798

(i) SYNERGISTIC ACTIVITIES

1. Reviewer

- IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI)
- IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR) 2022, 2023, 2024, 2025, 2026
- IEEE/CVF International Conference on Computer Vision (ICCV) 2023, 2025
- European Conference on Computer Vision (ECCV) 2024, 2026
- Conference on Neural Information Processing Systems (NeurIPS) 2025
- International Conference on Learning Representations (ICLR) 2025, 2026
- International Conference on Machine Learning (ICML) 2026
- AAAI Conference on Artificial Intelligence (AAAI) 2022, 2026
- IEEE/CVF Winter Conference on Applications of Computer Vision (WACV) 2022
- The British Machine Vision Conference (BMVC) 2020, 2026
- ACM Multimedia (ACMMM) 2025
- IEEE Transactions on Multimedia (TMM)
- International Journal of Computer Vision (IJCV)

(j) TEACHING

1. Teaching Assistant, Yonsei University, Dept. of Electrical and Electronic Engineering, 2018-2021
 - Electrical and electronic engineering experiments: fundamentals, Digital signal processing
 - Digital signal processing
 - Deep learning experiments
